

## Configure Connection Settings

Tap Start > Settings > Connections tab > Connections icon.

Tap the Advanced tab. Tap the Dialing Rules & Exceptions buttons to confirm that these options are unchecked and blank. Then tap the "Select Networks" button.

Tap the down arrow to the right of "My ISP" and select "My Work Network"

Tap the 1st Edit button, then tap the Proxy Settings tab. Place a checkmark in the box next to "This network connects to the Internet." Leave everything else on this page blank.

Tap OK to return to the Network Management page. Then tap the 2nd "Edit" button and place a checkmark in the box next to "This network connects to the Internet" just as you did for the 1st "Edit" button. Tap OK > OK > OK to return to the Settings
